

Veteran Victory

In continuing as "The Commandment" of the Northeast Alabama detachment of the Marine Corps League, Howard presents this check to Colonel Bob of the Gadsden-Etowah Patriots Association. The organization is responsible for financing World War II veterans to visit the new memorial in Washington (Patriot Flight Program).

Also present was a state senator to congratulate and recognize both parties for their contribution to the community and the country.

In the coming months, the chapter will be hosting an antique car show in downtown Gadsden to raise money for the Marine Corps sponsored "Toys for Tots" program. Other fund raisers help assist in the purchase of special tri-cycles for children who suffer from Cerebral Palsy (CP) in the regional area.

With publicity of this kind, the organization continues to grow with a present membership of just over fifty that served from WWII to the present...
